

# Amanda D. Rodewald

Cornell Lab of Ornithology  
Department of Natural Resources, Cornell University  
159 Sapsucker Woods Road, Ithaca, N.Y. 14850  
Email: arodewald@cornell.edu

---

## EDUCATION

Ph.D. in Ecology, 2000. Pennsylvania State University, University Park, Pennsylvania.  
M.S. in Zoology, 1995. University of Arkansas, Fayetteville, Arkansas.  
B.S. in Wildlife Biology, 1992. University of Montana, Missoula, Montana.

## PROFESSIONAL POSITIONS

**Garvin Professor of Ornithology and Director of Conservation Science**, Cornell Lab of Ornithology and Department of Natural Resources, Cornell University. 2013 to present. (Garvin chair named in 2016)  
**Faculty Fellow**, Atkinson Center for a Sustainable Future, Cornell University. 2013 to present.  
**Affiliate Faculty**, Cornell Institute for Public Affairs, 2018 to present.  
**Professor of Wildlife Ecology** (2010-2013), Associate Professor (2006-2010), Assistant Professor (2000-2006). School of Environment and Natural Resources, The Ohio State University.  
**Visiting Scientist**, Integrative Ecology, Estación Biológica de Doñana, CSIC, Sevilla, Spain. 2011-2012.  
**Graduate Research Associate**, School of Forest Resources, Pennsylvania State University, 1996–2000.  
**Research Assistant**, Montana Dept of Fish, Wildlife, and Parks, 1996 and 1995  
**Tropical Research Assistant**, Manomet Observatory for Conservation Sciences, 1996.  
**Laboratory Assistant**, Dept. of Entomology, University of Arkansas, 1995.  
**Graduate Assistant**, Dept of Biological Sciences, University of Arkansas, 1993-95.  
**Biological Technician**, Glacier National Park, Montana, 1992.

## HONORS AND AWARDS

**Fellow**, American Association for the Advancement of Science, 2017  
**International Research Fellow**, Wall Institute for Advanced Studies, Univ. British Columbia. 2016-18  
**Public Voices Fellow**, The Op-Ed Project, 2017  
**Partners in Flight Investigation Award**, 2013  
**Avian Conservation and Science Award**, Ohio Ornithological Society, 2012  
**Fellow**, American Ornithologists Union, 2011  
**Fellow**, CIC Academic Leadership Program, 2010-2011  
**Best Lessons Learned Award for Migratory Bird Conservation**, Eco-Index & Rainforest Alliance, 2011  
**Distinguished Junior Faculty Research Award**, Ohio Agricultural Research & Development Center, 2007  
**Elective Member**, American Ornithologists' Union, 2006  
**Fellow**, President's and Provost's Leadership Institute, OSU, 2006-2008  
**Best Lessons Learned Award for Migratory Bird Conservation**, Eco-Index & Rainforest Alliance, 2009  
**Finalist**, Magrath & Kellogg Foundation Engagement Award, OSU, 2007  
**Price Academic Advising Award**, College of Food, Agricultural, & Environmental Sciences, OSU, 2004  
**Roger Latham Award**, School of Forest Resources, PSU, 2000  
**Brian Horton Award**, Ecology, PSU, 2000  
**Paul A. Stewart Research Award**, Wilson Ornithological Society, 1999  
**Graduate Women in Science**, Sigma Delta Epsilon Fellowship, 1998-99  
**Clare Boothe Luce Fellowship**, Women in Science & Engineering Institute, PSU, 1997-99

*Pinchot Scholar*, School of Forest Resources, PSU, 1996-1999

*National Park Service Productivity Award*, 1993

*Outstanding Senior Award*, School of Forestry, UM, 1992

Scholarships: Watkins Research Scholarship, UM, 1991-92; Montana Board of Regents Scholarship, 1991-92; Ralph H. O'Brien Scholarship, 1989-90; New York Regents Scholarship, 1988-90

## HIGHLIGHTS

- 18 years as a professor in Tier I Research Universities, where I:
  - led and integrated research, teaching and outreach/extension programs;
  - supervised (cumulatively) >150 staff, students, and post-doctoral researchers;
  - built a highly productive research program focused on ecology and sustainability science;
  - initiated and managed multi-year, multi-institution projects in North and South America;
  - developed and evaluated curricular and training programs in interdisciplinary departments;
  - taught 17 different course at the graduate and undergraduate levels;
  - served universities on campus-wide, college, and departmental task forces and committees;
  - designed and implemented outreach and extension programs at regional, national, and international levels
- Programmatic, financial, and administrative leadership as Director of the Conservation Science Program (\$1.5 million annual budget) at the Cornell Lab of Ornithology to:
  - discover and innovate through interdisciplinary science that identifies the threats facing priority systems and species, the actions needed to ensure conservation, and the ways to work with people to achieve them;
  - bring science to action; by working at the interface of science and application and collaborating with decision-makers and practitioners, we help guide planning and policy, empower action, and provide leadership for strategic multi-partner initiatives, and
  - build capacity in science and conservation among students, scientists, and practitioners around the world.
- National leadership and service to Federal agencies that includes over a decade of service with the Science Advisory Board of the U.S. Environmental Protection Agency and chairing their controversial panel evaluating revisions to the regulatory definition of the “Waters of the US”.
- Extensive academic leadership and planning, such as on the Faculty Advisory Board of the Atkinson Center for a Sustainable Future and Steering Committee of the Ohio State University’s Senate.
- Strong record of publication for scientific and lay audiences, with 124 peer-reviewed scientific articles, 10 book chapters or edited volumes, 36 op-eds or popular articles, and 20 extension publications.
- Proven ability to raise funds (>\$8 million in grants and contracts) and contribute to university development programs (e.g., major gifts, alumni events, capital campaigns).
- Demonstrated skills at translating science and engaging diverse audiences and stakeholders from public and private sectors on issues related to science, sustainability, environmental protection, conservation, and responsible business/finance.
- Media training and experience with interviews for articles, radio, television, and film.
- Successful history of cultivating and strengthening networks with partners in government agencies, non-profit organizations, foundations, and the private sector.

## NATIONAL LEADERSHIP AND SERVICE

- **Scientific Review Board, National Socio-environmental Synthesis Center**, 2012-2016. SESYNC is an NSF-funded synthesis center focused on socio-environmental issues.
- **Advisory Committee for Monitoring Avian Productivity and Survival (MAPS)**, 2016 to present.

- **Founding member** of the Steering Committee for the Breeding Grounds program of the Canada Warbler International Conservation Initiative, 2015-2016.
- **Chartered Science Advisory Board of US Environmental Protection Agency**, 2009 to 2015. Advised the Agency on broad scientific matters in science, technology, social/economic issues, evaluates scientific and technical information as well as methodological and analytical approaches that support regulatory decisions, and provides guidance on development and application of strategic research programs in the Agency.
- **Avian Advisory Committee, Wildlife Habitat Council**, 2014. Provided guidance and recommendations on how corporate habitat improvement projects should be evaluated and certified by the Wildlife Habitat Council.
- **Chair, EPA Science Advisory Board review panel for EPA's draft report *Connectivity of Streams and Wetlands to Downstream Waters: A Review and Synthesis of the Scientific Evidence***. 2013-2014. Reviewed the EPA's controversial draft report on The Waters of the US, that synthesizes the scientific literature regarding the biological, chemical, and hydrologic connectivity of waters and the effects that small streams, wetlands, and open waters have on downstream waters such as rivers, lakes, estuaries, and oceans. Reviewed the scientific basis of the proposed water rule at special request of Congress.
- **National Academies / National Research Council's Committee on Human and Environmental Exposure Science in the 21<sup>st</sup> Century**, 2010-2012. Developed a long-range vision for exposure science as well as an implementation strategy. Efforts included the development of a unifying conceptual framework for exposure science to advance the study and assessment of human and ecological contact with chemical, biological, and physical stressors in their environments.
- **Ecological Processes and Effects Committee of the Science Advisory Board, US Environmental Protection Agency**, 2006 to 2012. Provided independent advice to the EPA Administrator on issues related to EPA environmental programs, science, and research that aims to protect, sustain and restore the health of ecosystems.
- **Report on the Environment Review Panel of the Science Advisory Board, US Environmental Protection Agency**, 2009 to 2015. Provided advice on future development of the Agency's Report on the Environment.
- **Review Panel for National Science Foundation, Ecology Program**, 2007, 2009, 2012. Evaluated proposals submitted to Ecology program of Division of Environmental Biology of NSF.
- **Expert for US Environmental Protection Agency's Workshop on "Ecological Risk Assessment – An Evaluation of the State-of-the Practice"**, 2006.
- **Geographic Information System Screening Tool (GISST) Review Panel of the Science Advisory Board, US Environmental Protection Agency**, 2005. Reviewed GISST, an environmental assessment tool that systematically evaluates single media and cumulative impacts for environmental and regulatory decisions in Region 6.
- **Critical Ecosystem Assessment Tool Review for the Science Advisory Board, US Environmental Protection Agency**, 2004. Reviewed a spatially explicit model (CrEAM) developed to assess the ecological significance of land areas across EPA Region5.

#### INSTITUTIONAL LEADERSHIP AND ADMINISTRATION

- **Director of Conservation Science Program, Cornell Lab of Ornithology (2013 to present)**
  - Manage ~\$1.5 million annual budget from grants, gifts, and contracts.
  - Supervise 6-9 professional and academic staff and 6-8 graduate students.
  - Developed a research portfolio with staff and students that included projects in 13 countries – Chile, Peru, Colombia, Panama, Costa Rica, Nicaragua, Honduras, Guatemala, Belize, Jamaica, Mexico, Canada, and the U.S.

- Conceived of and co-developed the Cornell Lab's Land Trust Initiative, which builds capacity in land trusts for strategic planning, monitoring, and conservation through workshops, publications, web-based resources, online interactive decision-support tool, and a small grant program.
- Initiated interdisciplinary research to innovate in collaborative and entrepreneurial approaches to sustainability, conservation finance, and environmentally-friendly business, such as developing market-based incentives for forest restoration and conservation in Latin America; collaborators include Johnson School of Business, Dyson School of Applied Economics, Cornell Institute for Public Affairs, and private sector. This includes co-organizing an international conference and roundtable on conservation finance in Vancouver (<https://conservationfinance.pwias.ubc.ca/>)
- Cultivated institutional partnerships with American Bird Conservancy, National Fish and Wildlife Foundation, Wildlife Conservation Society, and foundations.
- Developed competitive grant program to support conservation by land trusts.
- Engage frequently with conservation practitioners and environmental agencies and NGOs
- Write bi-monthly contributor column in The Hill, a leading US policy/news source for Capitol Hill as well as contribute op-eds to other news outlets.
- Interact regularly with media for interviews and commentaries (print, radio, film)
- Contribute to development activities by engaging with private donors and foundations.
- Coordinate the Conservation Associates program with the Cornell Institute for Public Affairs
- **Faculty Advisory Board**, Atkinson Center for a Sustainable Future, Cornell (2013 to present). Provided oversight, direction, and advice to Cornell's interdisciplinary sustainability center.
  - Provide faculty leadership for the development and launch of Cornell's partnership and grant program with The Nature Conservancy
- **Cornell Sustainability Task Force**, Cornell (2017-2018). Developed a strategy for Cornell University to be an international leader in sustainability science and application, emphasizing how to facilitate collaboration across campus and with external partners.
- **College of Agricultural & Life Sciences Structure Task Force**, Cornell (2016). Evaluated the organizational structure of the College and proposed ways to improve efficiency, capacity to pursue cutting-edge research, teaching, and extension efforts, and student experience.
- **Seminar Series Co-organizer**, Department of Natural Resources, Cornell (2015-2017).
- **Graduate Admissions Committee**, Department of Natural Resources, Cornell (2013-2016).
- **Environmental Science & Sustainability Internship Committee**, Cornell (2015)
- **Oversight Committee**, Cornell Center for Wildlife Conservation, Cornell (2013 to present)
- **Ad hoc tenure review committee chair**, College of Agricultural and Life Sciences, Cornell (2015).
- **Science Advisory Committee to Environmental Science Program Council**, OSU (2010-2011). Developed strategic plan to reorganize and integrate environmental sciences across colleges at Ohio State; reported to Provost and Deans.
- **Steering Committee of University Senate, Ohio State University** (2009-2011). Senate leadership committee that met monthly with Provost and academic leaders to identify and discuss key issues.
- **University Senate, Ohio State University** (2009-2011). Elected governance body comprised of faculty, staff, and students.
- **Advisory Committee for Ohio Sea Grant College Program, Stone Laboratory, the Center for Lake Erie Area Research (CLEAR), and the Great Lakes Aquatic Ecosystem Research Consortium (GLAERC)** (2010-2012). Developed strategic and tactical plans for research, education, and outreach efforts.
- **Advisory Board for Climate, Water, Carbon Program** at OSU (2008-2011). Appointed to administer and steer the multi-million dollar university targeted investment in excellence, especially regarding grant awards, research progress, and faculty hires.
- **Advisory Board for Raccoon Ecological Management Area** (OSU representative; 2008-2010). Board of appointed representatives from academic institutions, federal & state agencies, and non-profit organizations to oversee research and management on cooperatively managed natural area.

- **Environment & Natural Resources Graduate Studies Committee** (2001-2011). Responsible for administering graduate programs in School of Environment & Natural Resources, including matters regarding admission, fellowships and associateships, graduate curriculum, and program requirements.
- **Advisory Committee for Audubon Sanctuary**, Ohio State University Golf Course (2011). Tasked with providing advice on environmental sustainability and wildlife management on golf course. .
- **Affiliate Faculty of the John Glenn Institute of Public Service and Public Policy** (2006-present).
- **Search Committees**. Chair for search for Assistant Professor of Aquatic Ecology (2010); member, search committees for Assistant Professor in environmental decision-making (2006-07), SENR Director (2004-05), Assistant Professor of wildlife ecology (2002), and Assistant Professor in natural resources communication (2001).

#### **LEADERSHIP AND SERVICE TO PROFESSIONAL SOCIETIES**

- Elected member of Nominating Committee of the AAAS Section on Agriculture, Food, and Renewable Resources, 2015-2018.
- Special research topic co-editor, *Frontiers in Ecology and Evolution: Behavioural and Ecological Consequences of Urban Life in Birds*. 2016-2017. With Caroline Isaksson and Diego Gil.
- Editorial Board, *Issues in Ecology* (ESA), 2013 to present.
- Editorial Board, *Studies in Avian Biology*, 2010 to 2016.
- Member, Early Professionals Committee, American Ornithological Society 2013-14.
- Chair of Outreach and Education, Society for Ornithology Committee, 2011-2012.
- Council Member of The American Ornithologists' Union, 2008-2011.
- Associate Editor for the *International Journal of Forestry*, 2008-2011.
- Associate Editor for *The Auk, an International Journal of Ornithology*, 2006-2010.
- Associate Editor for *Journal of Wildlife Management*, 2004-2006.
- Member of Publication Awards Committee for The Wildlife Society, 2005-07.
- Member of Research Awards Committee of American Ornithologists' Union, 2005-07.
- Guest Editor for special issue, *Wildlife Society Bulletin*, 2004-2005.
- Guest Editor for *Conservation Biology*, Spring 2004
- Grants for National Science Foundation - Ecology, Population Biology, & International Programs; US Fish and Wildlife Service; Great Lakes Protection Fund Program; US Forest Service. Northeast Research Station Research Charter; National Fish and Wildlife Foundation grants; Wayne National Forest Plan and Species Viability Evaluations; National Commission on Science for Sustainable Forestry, Sustainable forestry bio-indicators;
- Reviewer for *Science, Nature, Ecology, Ecological Monographs, Ecological Applications, Landscape Ecology, Conservation Biology, Biological Conservation, Journal of Animal Ecology, Agroecosystems and Environment, Journal of Wildlife Management, Ecography, Journal of Tropical Ecology, Journal of Field Ornithology, Landscape and Urban Planning, Environmental Management, The Auk, Wilson Journal of Ornithology, Forest Science, Condor, Oikos, Naturwissenschaften, Ornis Fennica, Natural Areas Journal, American Midland Naturalist, Wildlife Research, Ohio Journal of Science, Journal of Applied Ecology, Forest Ecology and Management, Ardeola, Journal of Avian Biology, Frontiers in Ecology and Evolution*

#### **RESEARCH**

As an ecologist, I study how global changes impact ecosystems across multiple spatiotemporal scales and levels of biological organization. My research touches on a variety of sub-disciplines, including conservation biology, community ecology, landscape ecology, population demography, behavioral ecology, ecological restoration, and sustainability science. My current work focuses on (1) population and community responses to changes in land use, climate, invasive species, and disturbance regimes, (2)

socioecological dynamics and conservation in working landscapes, (3) eco-evolutionary dynamics in human-dominated and urbanizing systems, (4) sustainable management of temperate and tropical forests, (5) conservation planning and prioritization, and (6) innovative finance and market-based instruments to support conservation and alleviate poverty.

**CONFERENCE ORGANIZATION:**

Design and Application of Conservation Finance Models to Biodiversity, Conservation, Human Well-being and Sustainability, March 2018. University of British Columbia. ~110 attendees. With Peter Arcese.

Financing a Sustainable Future, Joseph & Rosalie Segal Centre, SFU Harbour Centre in downtown Vancouver. Event for finance community, investors, NGOs, and interested public. March 2018. ~70 attendees. With Peter Arcese.

**ROUNDTABLE DISCUSSION:**

Arcese, Rodewald, Sarra, and Tobin. 2018. Wall International Roundtable. Promise and Peril: Conservation Finance Models for Biodiversity Conservation, Well-Being and Sustainability. University of British Columbia. March 23-25.

Rodewald, A.D., P.P. Marra, K.L. Evans, L. Conole, and C.Suertegaray Fontana. 2010. Frontiers in urban ecology: moving from pattern to process. Organizers/Facilitators of a Roundtable Discussion Group at International Ornithological Congress, Brazil.

**SCIENTIFIC PRESENTATIONS:**

1. Swift, RJ, AD Rodewald, and NR Senner. 2017. Seasonal carryover effects in a long-distance migrant. Western Hemisphere Shorebird Group Meeting, Peru.
2. MacDonald, GJ, RJ Swift, and AD Rodewald. 2017. Influence of foraging substrate, mudflats type, and human disturbance on Hudsonian Godwit abundance on Isla Chiloé, Chile. Western Hemisphere Shorebird Group Meeting, Peru.
3. Colorado, G.J and AD Rodewald. 2017. Response of mixed-species flocks to habitat alteration and deforestation in the Andes. Ornithological Congress of the Americas. Puerto Iguazu, Argentina.
4. Bennett, R., AD Rodewald, and KV Rosenberg. 2017. Female-dominated non-breeding sites are low quality for male but not female Golden-winged Warblers. Meeting of the American Ornithological Society and Society for Canadian Ornithologists. East Lansing, Michigan.
5. Dossman, B., AD Rodewald, P Marra. 2017. Seasonal rainfall influences intra- and inter-seasonal variation in territoriality of a wintering migratory songbird. Meeting of the American Ornithological Society and Society for Canadian Ornithologists. East Lansing, Michigan.
6. McNeil, DJ, AD Rodewald, KE Johnson, JL Larkin. 2017. Monitoring reveals successful management of private- and public forestlands for nesting Golden-winged Warblers. Meeting of the American Ornithological Society and Society for Canadian Ornithologists. East Lansing, Michigan.
7. Soto, GE, AD Rodewald, PM Vergara, V Ojeda, and L. Chazarretad. 2017. Previously-used nesting cavities influence occurrence and territory size of Magellanic Woodpeckers. Meeting of the American Ornithological Society and Society for Canadian Ornithologists. East Lansing, Michigan.
8. Swift, R., AD Rodewald, NR Senner. 2017. Context-dependent protective nesting association in Hudsonian Godwits (*Limosa haemastica*). Meeting of the American Ornithological Society and Society for Canadian Ornithologists. East Lansing, Michigan.

9. Rodewald, AD, V. Ruiz-Gutierrez, F. LaSorte, and C. Wood. 2017. The dual roles of protected areas in conserving migratory birds and supporting communities. Invited symposium talk. International Congress of Conservation Biology. Cartagena, Colombia.
10. Arcese, P., E. Law, T. Martin, A.D. Rodewald, R. Schuster, K. Wilson, and H. Possingham. 2017. High complementarity in biodiversity, riparian, and carbon values: tax-shifting pays in three ways. International Congress of Conservation Biology. Cartagena, Colombia.

## **TEACHING**

### **PHILOSOPHY:**

I have been teaching at the university level since I first entered graduate school in 1993. Both my philosophy and approach continue to evolve as I develop as an educator. Over time, I have shifted

my view from a teaching-focused to a learning-focused perspective. I understand that as an educator I must facilitate student learning by (1) using a variety of teaching techniques in order to engage students with different learning styles, (2) working actively and collaboratively with students both within and outside of the classroom, (3) instilling enthusiasm and the desire to learn in students through my own example, (4) creating a sense of community within the classroom that encourages open dialogue and learning, (5) promoting critical thinking and analysis through problem-solving and experiential learning activities, (6) stimulating self-discovery and reflection related to contemporary ecological and environmental issues, and (7) mentoring students in their professional aspirations.

## **COURSES TAUGHT:**

### Undergraduate courses

*Introduction to Conservation Biology*. NTRES/EEB 2670. Biological, ecological, evolutionary, and social science principles that guide the conservation of biological diversity. Overview of threats to biodiversity, sustainable use, habitat management, ecological restoration, reserve design, landscape ecology, consumptive and non-consumptive use, adaptive management, and species recovery.

*Conservation with Communities*. NTRES 4940. Integration of life sciences, social sciences, medical sciences, and the humanities to explore the concept of “One Health”, the idea that the health of the environment, animals and people are all inextricably linked. The course also serves as a preparatory course for a subset of students who will be selected for international field experiences in Indonesia and Africa to work with communities to conserve endangered rhinoceroses and great apes in partnership with Ujung Kulon National Park and the Jane Goodall Institute, respectively. A fall course will bring together the engaged learning students for a seminar course with mentors and peers. Team-taught course.

*Principles of wildlife ecology and management*. ENR 623. Biological, ecological, and sociological concepts that serve as the foundation of wildlife management.

*Research in avian ecology*. ENR H231. Introduction to the scientific process and research methods as commonly applied to avian ecology studies.

*Ecology and conservation of birds* (at OSU Stone Laboratory). ENR 230. Field-based course that introduces students to avian ecology and conservation. Heavy emphasis on field identification and individual research projects.

*Introduction to the study of birds* (at OSU Stone Laboratory). EEOB 126. Avian evolution, biology, ecology, and conservation; research techniques used in avian studies; and identification of birds.

*Introduction to forestry, fisheries, and wildlife*. ENR 319. Introduction to the ecological and sociopolitical principles guiding management of fish, wildlife, and forests. Team-taught course.

*Ornithology* (Penn State). Avian evolution, physiology, morphology, biology, ecology, and conservation.

### Graduate courses

*Controversial Conservation Topics Seminar*. NTRES 6940. Discuss & debate the science and public discourse surrounding controversial conservation topics; explore feedbacks among science, policy, management, and public perceptions. The four topics are: status of global fisheries, ecosystem reference baselines, monetization of nature, and conservation triage. Team-taught course.

*Drafting a conservation blueprint: approaches for regional conservation planning*. ENR 899.06. Conservation planning within the context of ecological and sociopolitical complexity (with Dr. Deni Porej, The Nature Conservancy).

*Applied ecology and environmental policy in urbanizing communities*. ENR 899. Address ecological and sociopolitical underpinnings of urban environmental policy and planning through a combination of lectures, discussions, and group projects. Team-taught course with group projects.

*Managing wildlife metapopulations.* ENR 894. Applying metapopulation and landscape ecology theory to wildlife management (with Dr. Scott Hull, Ohio Div of Wildlife).

*Readings in landscape ecology.* ENR 894. Principles, methods, and applications of landscape ecology.

*Advanced wildlife ecology.* ENR 894. Concepts in population, community, and landscape ecology related to wildlife conservation and management.

*Graduate research colloquium.* ENR 897. Forum to present graduate research proposals.

*Research in natural resources.* ENR 800. Seminar to introduce new graduate students to research.

*Sustaining natural resources in a world of six billion* (Penn State). Natural resource management and agricultural sustainability with an ever-increasing human population. Team taught

#### Laboratories

Principles of Wildlife Management, PSU

Wildlife Population Dynamics, PSU

General Biology, UA

General Ecology, UA

#### Global Online Course

- Lecture for *Environmental Education: Trans-disciplinary Approaches to Addressing Wicked Problems* (<http://www.globalee.net/>). 3300 enrolled. Spring 2016.

#### First-year Experience Seminars

- Birds & Beans: How your consumer choices about coffee affect bird conservation. 2010.

#### Non-university short courses or workshops for K-12 students

- Neotropical migratory birds, COSI Electronic Experts broadcast to schools across Ohio, 2004-2006.
- Techniques in wildlife research, WISE (Women in Science and Engineering) Camp at The Wilds.
- Population ecology, “*Expanding Your Horizons*” Conference for 7<sup>th</sup>-9<sup>th</sup> grade girls.
- Research approaches in wildlife ecology, Nittany Science Camp for Girls.

#### Courses for Professionals and Managers

- Coinstructor for *Curso Internacional de Campo: Ecología de Aves Migratorias Neotropicales* in San Vicente de Chucurí, Santander – Colombia from October 2008.
- Coinstructor, *Wildlife habitat management on golf courses*, Invited full-day workshop at Annual Conference of Golf Course Superintendents Association of America (GCSAA), New Orleans, 2009.
- Coinstructor, *Wildlife habitat management on golf courses*, Invited full-day workshop at Annual Conference of Golf Course Superintendents Association of America (GCSAA), San Diego, 2010.

#### **ADVISING:**

#### Completed (18 MS, 8 PhD)

1. Kathi L. Borgmann, M.S. in Natural Resources. Fall 2002. Invasion of riparian forests by exotic shrubs: effects of landscape matrix and implications for breeding birds.
2. Marja H. Bakermans, M.S. in Natural Resources. Winter 2003. Hierarchical habitat selection in the Acadian Flycatcher: implications for conservation of riparian forests.
3. Kelly A. Atchison, M.S. in Environmental Science. Summer 2003. Community structure and behavior of wintering birds in riparian forests: relationships with landscape matrix, microclimate, and local habitat.
4. Andrew Vitz, M.S. in Natural Resources. Fall 2003. Habitat use of regenerating clearcuts by mature-forest birds during the post-breeding period.

5. Melissa J. Santiago, M.S. in Natural Resources. Winter 2004. Golf courses as habitat for an oak-savanna specialist: the Red-headed Woodpecker.
6. Lionel Leston, M.S. in Natural Resources. Summer 2005. Are urban riparian forests ecological traps for understory birds? Habitat selection by Northern Cardinals (*Cardinalis cardinalis*) in urbanizing landscapes.
7. Nancy Sundell-Turner, M.S. in Natural Resources. Fall 2006. Strategies to optimize conservation planning in urbanizing landscapes.
8. Bret Graves, M.S. in Natural Resources. Summer 2007. Grassland bird conservation on reclaimed surface mines: evaluating the influence of vegetation structure on distribution, nest placement, and nesting success.
9. Jennifer Smith-Castro, M.S. in Natural Resources. Winter 2008. Impacts of recreational trails on breeding birds in forested urban parks.
10. Marja Bakermans, Ph.D. in Natural Resources. Spring 2008. Demography and habitat use of Cerulean Warblers on breeding and wintering grounds.
11. Sarah Lehnen, Ph.D. in Natural Resources. Spring 2008. An evaluation of survivorship and habitat use of early-successional birds during the breeding season: implications for conservation.
12. Andrew Vitz, Ph.D. in Natural Resources. Spring 2008. Survivorship, habitat use, and movements for two species of mature forest birds during the post-fledging period.
13. Daniel P. Shustack, Ph.D. in Natural Resources. Summer 2008. Reproductive timing of passerines in urbanizing landscapes.
14. Felicity Newell, M.S. in Environment & Natural Resources. Spring 2010. A bird's eye view of the forest: how does canopy openness affect canopy songbirds?
15. Ian Ausprey, M.S. in Environment & Natural Resources. Spring 2010. Post-fledging ecology of two songbird species across a rural-to-urban landscape gradient.
16. Gabriel Colorado, Ph.D. in Environment & Natural Resources. Fall 2010. Ecology and conservation of Neotropical-Nearctic migratory birds and mixed-species flocks in the Andes.
17. Jennifer Thieme, M.S. in Environment & Natural Resources. Summer 2011. Behavioral and reproductive consequences of predator activity to grassland birds.
18. Benjamin Padilla, M.S. in Environment & Natural Resources. Avian metapopulations in an urbanizing landscape. Spring 2012.
19. Desiree Narango, M.S. in Environment & Natural Resources. Causes and consequences of urban-associated song variation: a study of vocal behavior in the Northern Cardinal (*Cardinalis cardinalis*) Spring 2012.
20. Laura Kearns, Ph.D. in Environment & Natural Resources. Avian responses to predator communities in fragmented, urbanizing landscapes. Spring 2012.
21. Linnea Rowse, M.S. in Environment & Natural Resources. Pathways and Consequences of Contaminant Flux to Acadian Flycatchers (*Empidonax vireescens*) in Urbanizing Landscapes of Ohio, USA. Summer 2013.
22. Molly McDermott, Ph.D. in Environment & Natural Resources, Ohio State University. The Contribution of Agroforestry Systems to Bird Conservation in the Andes. Spring 2014.
23. Jennifer Malpass, Ph.D. in Environment & Natural Resources, Ohio State University. Effects of Food and Vegetation on Breeding Birds and Nest Predators in the Suburban Matrix. Fall 2015.
24. Gemara Gifford, M.S. in Natural Resources, Cornell University. Agroecosystems for communities and conservation: linking bird conservation and sustainable livelihoods in the Highlands of Guatemala. Fall 2015.
25. Rose Swift, M.S. in Natural Resources, Cornell University. Nest site selection in Hudsonian Godwits: effects of habitat and predation risk. Fall 2015.
26. Steven Sevillano. M.S. in Natural Resources, Cornell University. Diversity, ecology, and conservation of bird communities of *Polylepis* woodlands in the High Andes of Peru. Spring 2016.

Current (7 PhD)

1. Ruth Bennett, Ph.D. in Natural Resources, Cornell University
  2. Rose Swift, Ph.D. in Natural Resources, Cornell University
  3. Stephen Sevellano, Ph.D. in Natural Resources, Cornell University
  4. DJ McNeil, Ph.D. in Natural Resources, Cornell University
  5. Bryant Dossman, Ph.D. in Natural Resources, Cornell University
  6. Gerardo Soto, Ph.D. in Natural Resources, Cornell University
  7. Anna Lello-Smith, Ph.D. in Natural Resources, Cornell University
- Advisor to undergraduate wildlife majors in School of Environment and Natural Resources at Ohio State (2000-2013) and in Environmental and Sustainability Sciences at Cornell (2013 to present).
  - Advisor to Ohio State Chapter of Roots and Shoots, 2004-2006.
  - Co-advisor to Student Chapter of The Wildlife Society, The Ohio State University, 2001-2004.

**OUTREACH AND ENGAGEMENT****PHILOSOPHY:**

Conservation has been practiced for decades, yet biodiversity continues to be lost at alarming rates. Our record of conservation accomplishment lags, in part because the best science is not always applied to the problems we face. We must close the gap between science and decision-making if we are to effectively address global challenges and get the best return on our conservation investments. As an ecologist and conservation biologist, I advocate for the use of science in planning, policy, and decision-making processes, and I seek ways to engage the various players in productive discourse to promote a shared understanding of issues, problems, and solutions. My approach is to work collaboratively with decision-makers, communities of practitioners, the private sector, and the public with the goals of bringing science into the decision-making process, developing approaches that are sensitive to both social and environmental needs, and achieving mutually beneficial outcomes.

**REPRESENTATIVE OUTREACH ACTIVITIES:**

(>175 outreach programs and/or presentations since 2000)

Selected film and radio:

- Radical collaborations. 2017. Cornell University. [https://www.youtube.com/watch?v=CvwHtI\\_-2pI](https://www.youtube.com/watch?v=CvwHtI_-2pI)
- Conservation Science & Shade Coffee. 2017. Cornell Lab of Ornithology. <https://www.youtube.com/watch?v=b9fZRPgl0tE>
- Accelerating the speed of scientific discovery! 2016. Microsoft Education <https://www.youtube.com/watch?v=OHilG8DjPCY&feature=youtu.be>
- Shade-Grown Coffee Sustains Songbirds and People Alike. 2016. Cornell Lab of Ornithology. Two embedded short films at <https://www.allaboutbirds.org/in-colombia-shade-grown-coffee-sustains-songbirds-and-people-alike/>
  - Bird Research and Shade-grown Coffee
  - Economics of Sustainable Coffee
- Conserving migratory birds. Worldview. WBEZ Chicago radio. 2016. <https://www.wbez.org/shows/worldview/survival-threats-faced-by-migratory-birds/a2b5b5bf-6a16-4867-bc0d-4f21f0069668>
- Birds vs. Cats. How on Earth science show, KGNU radio Boulder/Denver. 2015. <http://howonearthradio.org/?s=Rodewald>

- Interviews with a wide variety of media outlets, including NPR, Science, USA TODAY, Science Daily, Scientific American, National Geographic, Smithsonian Magazine, Science Times, Houston Chronicle, Columbus Dispatch, Plain Dealer, InsideClimate News, Deutsche Welle, Press Herald, Knoxville News Sentinel, Scienceline

Invited talks for general audiences:

- Conservation in Action panel at National Geographic's DC headquarters for the Year of the Bird. 2018. Other panelists included President of National Audubon Society, CEO of BirdLife International, and Chief Scientist for National Geographic. <https://livestream.com/accounts/19771815/events/8040439>
- Coffee, communities, and conservation: how your cup can make a difference. 2018. Presented to two Cornell Alumni Clubs in Sarasota and Naples, Florida
- In the thick of it: how invasive shrubs affect breeding birds. Cayuga Bird Club. 2017.
- Birds & beans: coffee's role in conservation. Ithaca Garden Club. 2017.
- Coffee, Communities, and Conservation. President's Circle event at New York City Center. 2017 (Cornell's premier fundraising event)
- Aves, Carreras Profesionales, y Conservación Workshop, NY. 2016. Café y aves: cómo el café puede contribuir a la conservación.
- BirdSleuth workshop for teachers, Jardin, Colombia. 2016. Café y aves: cómo el café puede contribuir a la conservación.
- Salish Sea Bird Symposium, 2015. *eBird as a conservation tool*.
- Lorain County High School Day at Ashland University, 2014. *Birds and beans: how your cup of coffee can make a difference*.
- Copper County Audubon Club, 2013. *A bird of two worlds: the challenge of conserving the Cerulean Warbler*.
- The Biggest Week in American Birding Festival, 2013. Evening Keynote: *Singing the blues: the plight of the Cerulean Warbler*.
- Kentucky Ornithological Society Spring Meeting, 2013. Keynote: *Singing the blues: the plight of the Cerulean Warbler*.
- Cornell Lab of Ornithology – Monday night seminar series, 2013. *A bird of two worlds: the challenge of conserving the Cerulean Warbler*.
- Holden Arboretum, Spring Scientist Series, 2011. *Fragmentation and the fate of forest interior birds: keeping a big picture perspective in a small-patch world*. (~75 attendees)
- Seventh-Annual Conservation Symposium at The Cleveland Museum of Natural History, 2010. *A bird's eye view of the city: Bird conservation in an urbanizing world*. (~200 attendees)
- Midwest Birding Symposium, 2009. *Singing the blues: the challenge of conserving the Cerulean Warbler*. (~300 attendees)
- Ohio Wildlife Diversity Conference, 2009. *Singing the blues: the plight of the Cerulean Warbler*. (~800 attendees)
- Black River Audubon Society, 2009. *A bird of two worlds: the challenge of conserving the Cerulean Warbler*. (~40 attendees)
- Columbus Natural History Society, 2008. *A bird of two worlds: the challenge of conserving the Cerulean Warbler*. (~50 attendees)
- Delaware Bird Club, 2006. *Conserving early and late successional birds in Ohio*. (~30 attendees)
- Ohio Bird Banding Association, 2006. *Balancing the needs of early and late successional birds*. (~40 attendees)
- Ohio Horticultural Society, *Wildlife-friendly gardening and landscaping*. 2005. (~30 attendees)
- Ohio Wildlife Diversity Conference, 2004. *Protecting Ohio's riparian forest wildlife*. (~500 attendees)

- Simply Living Conference, 2002 and 2001. *Go Wild: attracting birds, bees, and butterflies to your backyard.* (~100 attendees in 2002, 75 in 2001)

Invited talks for regional or statewide bird conservation initiatives and efforts:

- Ohio Biodiversity Conservation Partnership meeting, 2012. *Linking science and management to conserve Ohio's forest birds.* (~50 attendees)
- Ohio Ornithological Society Conservation Conference, 2007. *A bird of two worlds: the challenge of conserving the Cerulean Warbler.* (~150 attendees)
- Ohio Avian Ecology and Conservation Conference, 2007. *Towards a mechanistic understanding of urban-associated changes in bird communities.* (~200 attendees)
- Ohio Audubon Assembly, 2005. *Conserving Ohio's riparian forests: lessons from the birds.* (~200 attendees)
- Northeast Ohio Forest Bird Conservation Workshop (through Ohio BCI), 2005. *Challenges and opportunities for forest bird conservation in Northeast Ohio.* (~150 attendees)
- Ohio Bird Conservation Initiative Workshop, 2004. *Conserving Ohio's forest birds.* (~100 attendees)
- Ohio Avian Ecology and Conservation Conference, 2003. *Shrubland birds of Ohio.* (~150 attendees)
- Ohio Avian Ecology and Conservation Conference, 2001. *Influence of landscape composition, microhabitat, and biotic interactions on avian nesting success.* (~250 attendees)

Invited talks for land managers and natural resource professionals:

- Making better conservation decisions in British Columbia. Vancouver, BC. 2015. *Prioritizing conservation in the coastal Douglas fir zone: making strategic investments.* (Arcese, Schuster, & Rodewald).
- Conservation Connections Forum organized by Habitat Acquisition Trust of BC. Vancouver Island, BC. 2015. *Strategic conservation in dynamic & incentive-based systems.*
- Workshop for Cross-boundary planning for resilience & restoration of endangered oak savannah and coastal Douglas-fir forest ecosystems. Friday Harbor, WA. 2015. *eBird as a conservation tool.*
- Ohio Fish and Wildlife Presentation Series, 2014. *Managing forest birds.* (A webinar with ~40 attendees)
- Annual Meeting of Ohio Society of American Foresters, 2011. *Integrating management for oak regeneration and forest bird conservation.* (~100 attendees)
- Five Rivers Metropark Trails Symposium, 2011. *Impacts of trails on wildlife.* (~100 attendees)
- Annual Conference of Golf Course Superintendents Association of America (GCSAA), *Wildlife habitat management on golf courses*, Invited full-day workshop, San Diego, 2010. (~50 participants)
- Annual Conference of Golf Course Superintendents Association of America (GCSAA), *Wildlife habitat management on golf courses*, Invited full-day workshop, New Orleans, 2009. (~75 participants)
- Ecological Landscaping Conference, 2007. *Population and behavioral responses of birds to urbanization.* (~300 attendees)
- Midwest Deer and Turkey Biologists Meeting, 2007. *Balancing the needs of early- and late-successional species in forested landscapes.* (~75 attendees)
- Annual Meeting of Ohio Society of American Foresters, 2007. *An opportunity in disguise: can conservation of Cerulean Warblers help us to restore Appalachian oak forests?* (~100 attendees)
- Annual Meeting of Ohio Society of American Foresters, 2006. *Silvicultural impacts on forest birds.* (~75 attendees)
- Statewide conference for natural resource professionals and land managers, 2003. *Natural resource management and wildlife habitat enhancement on public open spaces* (85 paid registrants; conference organizer and presenter).

- Ohio Parks and Recreation Association, Annual Conference, 2003. *Developing and implementing wildlife habitat enhancement plans*. (workshop organizer and presenter; ~75 attendees).
- Watershed Coalitions, 2002-2004. *Riparian forest wildlife*. Various locations in Ohio. (~30-50 attendees)
- Ohio Watershed Leaders Workshop, 2003. *Riparian forest wildlife*. (~35 attendees)
- Ohio Department of Natural Resources Seminar Series, 2003. *Forest management and Ohio's wildlife*. 2003. (~25 attendees)
- Ohio Department of Natural Resources – Division of Wildlife District Meetings, 2002-2003. *Managing for riparian forest birds*. (~30-60 attendees)
- Ohio Turfgrass Foundation Conference, 2002. *Creating wildlife habitats*. (~100 attendees)

Invited talks for private forest landowners:

- Eastern Ohio Forest Wildlife Conference, *Managing for forest songbirds*. 2001-2003. (~100 attendees)
- Ohio Woodland Stewards Program, *Incorporating wildlife needs into forest management plans and Wildlife habitat walk*. Various locations throughout Ohio, 2000-2004. (~25-50 attendees in each program)
- Ohio Woodland Stewards Program, 2003. *Exploring your forest*. (~100 attendees)
- Annual Meeting of the Ohio Woodland Owners' Association, *Forest fragmentation and Ohio's wildlife*, 2001. (~100 attendees)
- Woodland Owners Interest Groups (located throughout Ohio), *Incorporating wildlife needs into forest management plans and Managing forest wildlife*, 2001-2003. (~25-50 attendees per program)
- Capital Live, Alabama Forest Owners' Association, Inc. Live News Conference, *How do agricultural and silvicultural openings affect forest wildlife?* 2002.
